Schedule – SweSRII 2025

See next page for listing of oral presentations.

Day	Slot		Theme
Wednesday 4/6	13:00	13:05	Welcome and introduction	
	13:05	14:20	Oral 1-5	Implementation
	14:20	14:45	Break and posters	
	14:45	15:45	Oral 6-9	Implementation, novel treatments
	15:45	16:00	Break and posters	
	16:00	16:45	Oral 10-12	Novel treatments cont
Thursday 5/6	08:30	10:15	Oral 13-19 (including leg-stretcher)	Novel treatments cont, mechanisms
	10:15	10:30	Break	
	10:30	11:45	Oral 20-24	AI and NLP
	11:45	12:00	Closing ceremony	

Oral	Presenter	Title
1	Beate Standal	The healthcare professional as salesperson: How technology reshapes the therapist role in mental healthcare
2	Johan Edbacken	Internet-Based Cognitive Behavioral Therapy in Regional Healthcare: Practitioners' Experiences and Practical Challenges
3	Anahita Geranmayeh	Psychologists' perspectives on barriers and facilitators in implementing digital mental health interventions for refugees and migrants
4	Martin Karaba Bäckström	Needs and Preferences for Digitally Promoting Mental Health Literacy, Occupational Balance, and Peer Support among Young Adults in Sweden: A Qualitative Interview Study
5	Kristofer Vernmark	Cross-cultural AI-adaptation and pilot testing of the Digital Competencies for Applied Psychological Practitioners Scale in Swedish psychology students
6	Greta Schettini & Philip Lindner	Social workers' attitudes toward digital interventions in addiction care: A mixed-method study
7	Alexander Rozental	Online group-based cognitive behavioral therapy for reducing procrastination in college students: A randomized controlled trial
8	Rebecca Andersson	Therapist-guided and self-guided online behavioural activation versus treatment as usual for adolescents with mild to moderate depression: a single-blinded, randomised controlled trial
9	Alice Ahnlund Hoffmann & Josef Neib	Development and evaluation of blended CBT for common mental disorders within psychiatric outpatient and primary care
10	Kristina Aspvall	Is it possible to prevent the development of OCD in at-risk children? A feasibility study of a parent-guided programme.
11	Klara Olofsdotter Lauri	Exploring the efficacy and mediators of online cognitive therapy for taboo obsessions in OCD patients: A randomized controlled trial.
12	Frida Berglund	Therapist-guided, internet-delivered cognitive behavioral therapy (ICBT) for prolonged grief: feasibility and study protocol
13	Maria Hedman-Lagerlöf	Cost-effectiveness and cost-utility of exposure-based vs. traditional cognitive behavior therapy for fibromyalgia: Results from a randomized controlled trial
14	Jón Ingi Hlynsson	"I don't know if I cleaned it properly": Can we leverage smartphone-based solutions to deliver evidence-based treatment for OCD in everyday environments?
15	Madlena Arakelyan	Healing Across Borders: Online Integrative Psychotherapy for the Armenian Diaspora
16	Trine Theresa Holmberg Sainte-Marie	Developing and Designing a Personalized iCBT Treatment for Depression: The PERSONAE Project
17	Gerhard Andersson	Questions asked by therapists in guided ICBT for depression
18	Martin Kraepelien	What features are needed to make unguided digital self-help as effective as guided? Data from three recent randomized trials
19	Julia Krawczyk	How Young Adults with Persistent Physical Symptoms Engage with Internet-Based Resources: A Qualitative Study in Poland
20	Per Carlbring	AI as Therapist: Early Findings from a Three-Arm Trial for Social Anxiety
21	Nils Hentati Isacsson	Natural Language Processing Models for Predicting Treatment Outcomes in Internet-Based Cognitive Behavioural Therapy
22	Olga Perski	Designing an informative within-person experimental study to optimise a just-in-time adaptive intervention for smoking cessation
23	Robert Johansson	Computational Psychiatry Meets ICBT: Bayesian Virtual Patients
24	Viktor Kaldo	Clinical efficacy of a Machine Learning based Clinical Decision Support System for therapists treating patients with Internet Cognitive Behavioral Therapy – A triple blind randomized clinical trial
